DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 40-45, 47-49 stand rejected under 35 U.S.C. 103(a) as obvious over BAWA et al 6071439.

Bawa provides biocompatible intraluminal prosthesis inclusive of stents (catheters & vessel substitutes- lines 19-39, col. 6) although focus is on contact lenses & is exemplified as such.. Instant claims 40-49 are renumbered previously rejected claims, thus still meet or are obvious over Bawa, although we agree, Bawa's blocking is not as instantly used , masking .

Claims 27-45, 47-49 stand rejected under 35 U.S.C. 103(a) as being unpatentable over

Richard - US 2003/0044514 and Greiner -EP 0405284 in view of Hile et al '99 or

Bawa- et al 6071439.

As above, the claims are simply renumbered previously rejected claims, thus stand rejected.

The combination of references are seen as evident to one in the art to remove solvents in the process of preparing intraluminal prostheses, erodible or not—Bawa's examples of use of the process includes prostheses , erodible or not, although the exemplification was on contact lenses

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
